CLARITAS 
SOLUTIONS

Claritas has always been at the forefront of Information security, understanding that the opening of a free medium such as the internet will herald a new dawn of danger. Claritas has worked with some of the country's largest businesses and public services in securing the way in which they navigate, communicate and transact across the internet. We have an extensive knowledge in perimeter security such as firewalls, intrusion prevention and data loss prevention. We also assist businesses to implement robust content security measures such as web filtering. This coupled with our extensive knowledge of connectivity ensures that any connection is secure, whether that be utilising SSL VPN, 2 Factor Authentication or PKI. In all of these areas Claritas has an extensive portfolio of products and services that will meet your business needs.

Products:

- Firewall
- Intrusion Prevention
- Content Security
- Email Security
- Remote Working

Services:

- Security Architecture
- Installation Services
- Managed Firewalls
- ISO27001/PCI Compliance
- Protective monitoring
